FEATURES & BENEFITS

Lighting Energy Cost Savings	Energy consumption up to 80% less than standard MR16 type lamps.
Air Conditioning Energy Cost Savings	Generates very low heat; reducing Air Conditioning energy consumption.
Replacement Lamp & Labor Cost Savings	Life duration is over 50,000 Hours; 10-20X longer than standard MR16 type lamps.
Quick & Easy Plug & Power Installation	Installs directly into existing fixtures using the standard Bi-Pin GU5.3 lamp base.
Durable & Safe Lamp Design	Impact resistant & shock-proof design; no fragile glass for improved safety & durability.
Bright & Clean Light Emittance	High color rendering index; over 10X the brightness per watt of standard MR16 type lamps.
Environmentally Safe & Recyclable	Contains no harmful gases, mercury, sodium, lead or UV radiation (100% recyclable).
Green Rebates & Incentives	Qualifies for many Federal, State, Local Government & Utility based rebates & incentives.

TECHNICAL SPECIFICATIONS

Power Consumption	5 Watts	
Input Voltage	12V AC / DC	
	85-264V AC (working with external adapter)	
Base Type	Standard Bi-Pin GU5.3 (MR16)	
Life Duration	50,000 Hours	
Light Beam Angle	30° Beam	
Emission Color	Pure White	5000K - 7000K
	Warm White	3000K - 4000K
	Red	625nm
	Yellow	590nm
	Green	510nm
	Blue	470nm
Lumen Output (lux @ 1m)	170 lm	
Color Rendering Index	Ra>70	
Materials: Lens/Cup Radiator	Acrylics / Alloy Aluminum Plating	
Dimensions (W x H)	50mm x 45mm	
Certifications	CE, RoHS, UL
