**FEATURES & BENEFITS**

Lighting Energy Cost Savings	Energy consumption up to 80% less than standard strip lights.
Air Conditioning Energy Cost Savings	Generates very low heat; reducing Air Conditioning energy consumption.
Replacement Lamp & Labor Cost Savings	Life duration is over 100,000 Hours; 10-40X longer than standard strip lights.
Seamless Expandable Design	Dual connector ends provide the ability to daisy chain additional strips using one power supply.
Quick & Easy Surface Mount & Installation	Install directly onto surface using adhesive or strip light mounting clips
Durable & Safe Lamp Design	Impact resistant & shock-proof design; no fragile glass for improved safety & durability.
Bright & Clean Light Emittance	High color rendering index; over 10X the brightness per watt of standard strip lights.
Environmentally Safe & Recyclable	Contains no harmful gases, mercury, sodium, lead or UV radiation (100% recyclable).
Green Rebates & Incentives	Qualifies for many Federal, State, Local Government & Utility based rebates & incentives.

**TECHNICAL SPECIFICATIONS**

Dimensions	Length (inches / mm)	19.10" / 485mm
	Width (inches / mm)	0.31" / 8mm
LED Quantity	30	
Power Consumption	1.5 Watts	
Working Voltage	12V DC	
Working Current	200 MA	
Strip Connection Type	Dual bi-pin connector ends	
Installation Method	Strip light mounting clips or surface adhesive	
Life Duration	100,000 Hours	
Light Beam Angle	120° Beam	
Emission Color	Cool White	
	Warm White	
	Red	
	Yellow	
	Green	
	Blue	
	RGB
